# Andy Thai

CS @ UW Seattle, Minor in Business | Paul Allen Center of  
Computer Science and Engineering  
Seattle, Washington, United States

## Summary

A first-generation upcoming fourth-year student pursuing a degree in Computer Science and minoring in Business at the University of Washington Seattle, set to graduate in the Spring of 2024. Sufficient knowledge of Java, Python, C, SQL, and SQL++. A collaborative and detail-oriented individual, who is searching for internships and research labs related to these skills.

Always optimistic and enthusiastic about opportunities, ready to take on any challenges and learn from them. Communicative while collaborating with peers and mentors alike to tackle class projects as a team.

### Projects:

CSE 484 Vulnerability Lab (Spring 2023): As a team, we determined various bugs in the application that are used by an exploit, proposing fixes for the application as patches. Root cause analyses (RCA) are written as reflections of our patchwork as a team.

---
